

Fraser Engines & Transmissions Core Waiver Information

At Fraser, we understand that replacing your engine or transmission is a significant investment. To assist with the financial burden, we offer core waiver options that allow you to defer your core deposit, freeing up substantial funds to complete your project efficiently. Here's how our core waiver options work:

Core Waiver Option 1: 90-Day Hassle-Free Waiver

When you select our 90-day hassle-free waiver, we will waive the core deposit for a full 90 days. This option requires the purchase of our Fraser Advantage engine (option 2) coupled with our premium Fraser Elite Care warranty. This arrangement gives you three months to manage your project without the financial strain of a core deposit, while ensuring you receive our top-tier engine and the most comprehensive warranty we offer.

Core Waiver Option 2: 15-Day Rapid Return

Our second option allows you to waive the core deposit for 15 days. There are no specific purchase requirements for this option; however, it is crucial that the core is scheduled for return within the 15-day period. Failure to do so will result in the voiding of your warranty. This option is recommended only if you are confident that the core can be returned within the stipulated timeframe. Please note, once the warranty is voided, there are no exceptions.

Choose the core waiver option that best suits your project's timeline and budget, and let Fraser help you proceed with confidence.
