

Fraser Engines & Transmissions Core Waiver Information

At Fraser, we understand that replacing your engine or transmission is a significant investment. To assist with the financial burden, we offer core waiver options that allow you to defer your core deposit, freeing up substantial funds to complete your project efficiently. Here's how our core waiver options work:

Customers have the option to defer the core payment upfront, subject to the following conditions:

- 1. The unit must be shipped to a business address.**
- 2. The core must be scheduled for pickup within 15 days of receiving the product. Failure to do so will result in the payment method on file being charged accordingly. If the payment is declined, your warranty will be voided.**
- 3. When a core payment is waived, Fraser requires the addition of a No-Fault Warranty to the unit.**
